

Instructions for single cell sample submission for UCSD Investigators

Please contact epigenome@ucsd.edu to discuss your project with Center for Epigenomics staff before submitting samples. Once you have spoken to Center staff and are ready to submit samples, please:

- (1)** Ensure that your samples are prepared according to guidelines [here](#) (scATAC) or [here](#) (scRNA).
- (2)** Complete sample manifest (download blank copy [here](#)).
 - Please be sure to complete all fields in “Samples” tab.
 - Please be sure to review policies and affirm consent on “Policies” tab.
 - Please be sure that your samples are in 1.5 mL tubes clearly labeled with the same Sample ID as indicated on your sample submission form.
 - Please also label side of tubes with your last name.
- (3)** Send manifest to epigenome@ucsd.edu with the subject line:
“single-cell sample manifest - [your last name here]”.
- (4)** Please email epigenome@ucsd.edu to arrange sample drop-off Monday-Friday between 10am – 4pm with our Center staff.
